SUPPLEMENTARY INFORMATION: The Privacy Act of 1974, as amended (5 USC 552a), provides for certain protections for individuals applying for and receiving federal benefits. The law governs the use of computer matching by federal agencies when records in a system of records (meaning, records about individual retrieved by personal identifier) are matched with other federal or state agency records. The Privacy Act requires agencies involved in a matching program to:

1. Enter into a written agreement, which must be prepared in accordance with the Privacy Act, approved by the Data Integrity Board of each participating federal agency, provided to Congress and the Office of Management and Budget (OMB), and made available to the public, as required by 5 USC 552a(o), (u)(3)(A), and (u)(4).
2. Notify the individuals whose information will be used in the matching program that the information they provide is subject to verification through matching, as required by 5 USC 552a(o)(1)(D).
3. Verify match findings before suspending, terminating, reducing, or making a final denial of an individual's benefits or payments or taking other adverse action against the individual, as required by 5 USC 552a(p).
4. Report the matching program to Congress and the OMB, in advance and annually, as required by 5 USC 552a(o) (2)(A)(i), (r), and (u)(3)(D).
5. Publish advance notice of the matching program in the *Federal Register* as required by 5 USC 552a(e)(12).

This matching program meets these requirements.

PARTICIPATING AGENCIES: Office of Child Support Enforcement (OCSE) is the source agency, and state workforce agencies (SWAs) administering the Unemployment Compensation (UC) Program are the recipient agencies.

AUTHORITY FOR CONDUCTING THE MATCHING PROGRAM: 42 USC 653(j)(8).

PURPOSE(S): The matching program provides each SWA with new hire and quarterly wage information from OCSE's National Directory of New Hires (NDNH) system of records, pertaining to adult UC applicants and recipients, resulting from comparing client name and Social Security number combinations in the SWA's files to data in NDNH. The match results assist the SWAs in establishing or verifying eligibility for assistance, reducing payment errors, and maintaining program integrity, including determining whether duplicate participation exists or if the client resides in another state. The SWAs may also use the NDNH information for secondary purposes, such as updating UC recipients' reported participation in work activities, updating recipients' and their employers' contact information, and administering the SWAs' tax compliance function.

CATEGORIES OF INDIVIDUALS: The categories of individuals whose information is involved in the matching program are adult members of households who receive or have applied for UC benefits.

CATEGORIES OF RECORDS: The categories of records involved in the matching program are new hire and quarterly wage information. The specific data elements that will be provided to OCSE in a SWA input file are:

- Submitting state code (2-digit FIPS code)
- Date stamp (input file transmission date)
- UC benefit applicant/recipient's Social Security number
- UC benefit applicant/recipient's first, middle, and last name
- Same state data indicator (indicates whether the SWA requests NDNH new hire and quarterly wage information was provided to the NDNH by that same state)

- Passback data (SWA information used to identify individuals within the input file to be returned on the output file)
- Name/Social Security number verification request

OCSE will compare the Social Security numbers in the SWA input file to the Social Security numbers in the NDNH, and will provide the SWA with any available new hire and quarterly wage information in NDNH (including names, Social Security numbers, home addresses, and employment information) pertaining to the individuals whose records are contained in the SWA input file.

SYSTEM(S) OF RECORDS: The OCSE records disclosed to SWAs will be disclosed from OCSE's National Directory of New Hires (NDNH) system of records, No. 09-80-0381, last published at 80 Fed. Reg. 17906 on April 2, 2015. The disclosures are authorized by routine use 13 in that system of records.
